

Sermon Notes: September 6th 2026

Majesty - Astronomy

Psalm 19

Observations:

1. The majesty of God is found in the _____ of the heavens
 - The heavens keep God's _____: Days, years, seasons, lunar phases
 - The heavens keep God's _____: Earth, Moon, planets, stars
 - The heavens keep God's _____: Gravity, orbital mechanics, eclipses
2. The majesty of God is _____ available
3. The majesty of God is seen in the function of _____
4. Where we see God's astronomical and moral laws as _____, we also see another law that reveals our _____

Conclusions:

1. The precision of God's astronomical laws are a _____ for His moral law
 - A. When the heavens keep _____ to God's laws they declare His glory
 - B. When we live _____ to God's laws our lives declare His glory
 - A. God's astronomical laws are _____ binding and visible
 - B. God's moral laws are _____ binding and visible
 - A. God's astronomical laws have a specific function of _____
 - B. God's moral laws have a specific function of illumination of _____
2. We need _____ to understand and obey God's laws
 - A. God's laws must be seen through the lens of the _____
 - B. God's laws can only be seen as perfect through the work of the _____

Application:

1. _____ to allow conviction over sin according to God's Word
2. Don't take one step towards obedience without _____
3. Let the ordered redeeming perfection of Jesus' life assist you to _____ your heart and draw _____ your affections towards God _____
